

This form is sent when we don't have a person's email address. It looks slightly different than the online form, but both evaluations contain the same questions.

**STUDENT EVALUATION QUESTIONNAIRE FOR FACULTY MEMBER IN PHYSICAL EDUCATION,
ATHLETICS, AND RECREATION (PEAR)**

Please use a pen to complete and sign the form.

Evaluation of _____
(Faculty Member's Name)

1. Faculty members in PEAR teach academic courses, teach and/or lead activity classes, and coach a number of sport teams. How have you known this faculty member?

Course Name & Number	Varsity Sport	Activity Class	Academic Course	Academic Year	Term
This information is prepopulated for those completing the form online. They have the option to add additional information or note any corrections to the prepopulated information.					

2. Please briefly describe the criteria you use to judge the effectiveness of a faculty member/coach at Carleton.
3. Which qualities of a faculty member/coach are most helpful to your learning?
4. Measured according to your criteria, how well did this faculty member help you learn strategy, develop skill, improve conditioning, grow as an individual, and as a team-member?

5. Does this faculty member have any weaknesses that affected your experience? If so, please describe their weaknesses and how they affected your experience?

6. Are there aspects of this faculty member's professional work or scholarly activity, or breadth of athletic or intellectual interest, that enhance their teaching or coaching effectiveness?

7. Please list up to seven of the most effective faculty you have had at Carleton (including this faculty member, if appropriate).

8. Keeping in mind all the faculty you have had at Carleton, please check the phrase below that most closely reflects your rating of this faculty member:

among the least effective <input type="checkbox"/>	considerably less effective than average <input type="checkbox"/>	less effective than average <input type="checkbox"/>	of average effectiveness among Carleton faculty <input type="checkbox"/>	more effective than average <input type="checkbox"/>	considerably more effective than average <input type="checkbox"/>	among the most effective <input type="checkbox"/>
---	--	---	--	---	--	--
