

RESIDENCE HALL HEATING HOW-TO

COURTESY OF ENERGY CLUB

Nourse

- Thermostat controls a fan coil unit behind the metal panel in your room
- Temperature range is 60°F (bottom) to 70°F (top)
- Fan will turn on if room needs more heat; to manually turn off the fan, hold down the power button on the thermostat (this will also turn off heat)

Hold down this button to turn off the fan!

Tips to stay cozy:

- It will take a few minutes for the heat to start working! Be patient
- Closing the curtains/blinds can provide extra insulation
- If your room is too hot, use these instructions to turn your heat down (DON'T open the window!)
