

# RESIDENCE HALL HEATING HOW-TO

COURTESY OF ENERGY CLUB

## Watson

- Radiators are only used to warm windows, and can't be controlled
- Thermostat controls a fan coil unit above the closet
- Temperature range is 60°F (bottom) to 70°F (top)
- Fan will turn on if room needs more heat

## Tips to stay cozy:

- It will take a few minutes for the heat to start working! Be patient
- Closing the curtains/blinds can provide extra insulation
- If your room is too hot, use these instructions to turn your heat down (DON'T open the window!)

Hold down this button to turn off the fan!
